Communications:

Santa discussed how he got many letters this season (as usual), but got several about the TAOLF. There were several inquiries about how they formed and why they are represented by the DES. He said he directed the senders to the TAOLF website for more information on those topics. He mentioned though that people also wish to meet other members of TAOLF as all they get to meet are Santa and Easter Bunny. The others keep themselves hidden.

Old Business Items:

Santa's Holiday Update – Santa reported that all went well on this year's delivery. Very few problems arose. He also expressed how he declassified portions of his journey report and has had them posted to the TAOLF website.

Thanksgiving Update – Tom the Turkey discussed how he visited with this year's pardoned turkeys, Liberty and Peace at Mt. Vernon. They were extremely proud of being chosen as the first and second turkeys this year.

Father Time New Year's Update- He reported on his Times Square visit. He expressed how it was unusually warm (and thanked Mother Nature) and there were tons of people. He also discussed his visit with Dick Clark and how he gave Clark more magic dust to keep him looking as if he does not age.

Website – Santa expressed his desire for the website to keep growing and it needing more regular updates. He also expressed concern that the upcoming snow months will affect communications including the website updates.

New Business Items:

Mother Nature – Looking like it will be a warm winter—especially since she got thanks from Father Time.

The Assembly of Legendary Figures

Cupid – Discussed his February plans. He is very excited about this time of year and plans to shoot his arrows at twice as many people this year.
