

Pop - Tart House Instructions:

You will need:

Water

6 pop tarts

$\frac{1}{2}$ cup powdered sugar

a paper plate

assorted candies

Knife

Directions:

1. Make the frosting!
 - a. Mix $\frac{1}{2}$ a cup of powdered sugar with 2-3 teaspoons of water together, the frosting should be thick and sticky.
2. Unwrap your pop tarts!
3. Take 2 pop tarts and lay them next to each other one vertically and one horizontally.
4. Be careful: Cut the top half of the vertical pop tarts into triangles matching the height of the horizontal ones.
5. Repeat this process on two other pop tarts.
6. Take frosting and put it on the bottom (short side) of one of the pop tarts you cut. Then put it on one of the vertical sides (tall side) of the same pop tart.
7. Next take one of the uncut pop tarts and lay it horizontally. Put frosting on the bottom and side.
8. Connect the two pieces at a right angle forming two sides of your house.
9. Put your project in the fridge for 2 minutes to harden the frosting.
10. Then, connect your two other pop tart pieces adding them as the other two walls to your house with frosting.
11. After this you will take your remaining 2 pieces and use frosting to put them on as a roof and put in the fridge to harden the icing.
12. Lastly, you can use frosting to put your candies on the house however you like!
