

Salt Dough Ornaments

Supplies Needed:

- ❖ 2 Cups Flour
- ❖ 1 cup Salt
- ❖ Water
- ❖ Bowl
- ❖ Spoon
- ❖ Straw - Optional
- ❖ Paint, markers....anything to decorate

Directions:

- ❖ Measure out 2 cups of flour to 1 cup of salt and put it in the bowl.
- ❖ Then add a little water to the mixture and mix, continue to do this until you get a cookie dough consistency.
- ❖ Once you have your dough made, then you can form it into different shapes (or you can roll it out and use a cookie cutter).
- ❖ Make sure to punch a hole out of the top of your ornaments (you can use a straw for this), so that you can hang them.
- ❖ Place the ornaments on a cookie sheet in the oven at 300 degrees for about 1hr.
- ❖ Once the hour is up check and see if your ornaments are hard. If they are still soft, put them back in the oven in 5-10min increments until hard.
- ❖ Take the ornaments out of the oven then let cool completely.
- ❖ Decorate with whatever you have!
